Packed in Germany

Almost all our products are produced and packed at our production and packaging site in Arnstadt. Even our filling goods have highest standards from Germany and Europe.

Germany

100% recyclable plastic

The plastics we use for our products are 100% recyclable.

98% recycleable tinplate

Our tin cans are 98% recyclable, this saves energy, resources and emissions.

100% carton

Many of our products are made of cardboard that is 100% recyclable, and we are continuing to extend this proportion of the packaging.

Compostable inlays

Most of our advent calenders are packed with inlays, that are made completely out of compostable materials. The fossil-oil-free deep-drawing-products are completly decomposed by natural microorganisms in the environment. This sustainable advert-surprise will not only delight your customers, but especially all of the animaland plant world.

Bee happy

Since September 2019, two bee colonies with over 80.000 bees have been buzzing on the JUNG company roof. Our bee project is a valuable contribution towards the preservation of the local honeybee - and provides us with our own JUNG honey.

CO-PACKING

»PACKED IN GERMANY«

HIGH-QUALITY CLEVER TAILOR-MADE ATTRACTIVI

We work in Germany - from idea to packaging

Good working conditions and fair wages are a big matter for us, of course. Clever packaging, for various kinds of products, is produced in our own printing and packaging facility. Products are designed, printed, processed and packed directly in-house, with our know-how and according to your individual taste.

No matter whether the fabrication is done by hand or by machine, with us everything will be done under one roof. We are very proud of that - and also of our long-standing cooperation partners in Germany.

For example, for many years now, we are actively supported in production of our promotional items, by workshops for people with disabilities

Because inclusion also is a matter of our hearts

RETTERĞUT

OUR STARS

THE MIXTURE IS THE SOLUTION.

made from 100% saved chocolate

DID YOU KNOW THAT EVERY YEAR, IN GERMANY ALONE, 12 MILLION TONS OF HIGH-QUALITY FOODS ARE WASTED FROM THE FARM TO THE PLATE?

This includes many tons of high-quality chocolate. As with every change of type in chocolate production, hundreds of kilograms of chocolate are lost.

If production is switched from milk chocolate to dark chocolate, for example, several hundred kilogrammes of so-called "batch separation mass" are produced, consisting of dark and milk chocolate. These usually remain unused and are even disposed of unused. And much worse: together with the chocolate itself, all the resources expended are also thrown away. After all, a single kilogram of cocoa alone requires up to 20,000 liters of water during production.

Chocolate packed in compostable foil

WHAT DOES RETTERGUT DO ABOUT IT?

RETTERGUT's mission starts exactly there, where others have given up - saving food with a meaning! The Berlin startup is trying with passioned heart and soul to save food with more sustainability, appreciation and against its waste. With part of its proceeds, the brand also supports projects of other rescuers and valuers in the areas of nutrition, environment and health.

Promotes sustainable projects

SAVING REALLY DELICIOUS CHOCOLATE IN THE RIGHT WAY

Due to the increasing variety of chocolate types on the market, more and more type changes are necessary, that results in more and more mixed chocolate. This high-quality chocolate mix of different chocolate types uses RETTERGUT to produce big and small tenderly melting mix chocolate, the finest Santa Clauses and Easter bunnies and many other delicious treats. And all this CO2 -neutral with certified cocoa, fairly produced in Germany and packaged compostable. And we go one step further: We give a sustainable and individual packaging sleeve to this delicious chocolate. So your advertising and you become food savers - nothing gets better than that!

AWAKEN THE ZEBRA IN YOU!

TOGETHER IN MOTION!

Zonama food - as a fan of fruity and of course healthy snacks - sees resonsibility for themselves to act towards a positiv future. This Startup from Hannover supports different charity projects with each sale of its products, trying to give something back to our environment. This is a promise and Zonama takes it as serious as a Zebra takes it's stripes.

BARS FOR THE ENVIRONMENT

This startup wants to give something back to our planet and recognizes the protection of mother nature as a base for our products. Therefore Zonama Food plants a tree for every tenth sold product. Together with Eden Projects — a renowned reforestation network, the brand has already planted 12.167 trees where they help people and nature.

PLANT TREES. SAVE LIFES.

Eden Reforestation Projects is a Non-Profit-US-Organisation, which is comitted to global reforestation. As of today more than 250 million trees have been planted in countries like Ethopia, Madagascar, Nepal, Haiti, Indonesia and Mozambique. In this way the project does not only make an immense contribution to the environment, but also creates new jobs for the locals.

NEED A FRESH AND FRUITY COOL DOWN? GET THE VEGAN ICE-INNOVATION!

There is nothing more refreshing in summer than a delicious fruit preparation "ready to freeze". It includes only natural sweetness and a big portion of sustainability.

THE SNACK-REVOLUTION IN A STYLISH ZEBRA-LOOK

Zonama Food is sure that high impact food does not need industrial sugar or other additives/ingredients. Only high quality, vegan and gluten- and lactose-free ingredients end up in the bars. Thanks to the gentle raw-food-process, all valuable nutrients are retained.

TAKE A BITE & FEEL THE WILD

Practical vitamin- & engerybooster to go, found in three fruity delicious flavors: cacao orange, cashew crush and cherry tart.

OUR ECOLOGICAL PAPER PACKAGING.

Show your customers and business partners that protecting the environment and the climate is important to you: opt for sustainable advertising ideas.

We are constantly developing new sustainable packaging

solutions such as our biodegradable cereal cups, tearresistant kraft paper or recyclable composite cans. With complete freedom for your individual printing desire.

REGIONAL. NATURAL. YUMMY.

Honey is extremely delicious and a valuable foodstuff, but it gets even better: when you purchase a honey bee product, you are supporting a nearBees bee protection project.

As pollinators, the hard-working producers of the

golden treat see to flourishing landscapes and bountiful harvests, as well as the future preservation of fauna and flora. This attracts honey fans and many people who value the small, gold-striped insects.

BIO-DEGRADABLE.

Sustainability plays a big part in our products. Starting with the material made from fast growing resources right up to a climate neutral production.

Great, if the packaging is reused after it's initial use, e.g. as a nice pencil holder or safe-keeping box.

PREMIUM BOXES. CUSTOMISABLE PRINT.

Your product is preciously packed in a can of 98% rycylable tinfoil with a customisable print - charisma and longevity guaranteed.

PACKED SUSTAINIBLY AND COMPLETLY IN FASHION.

These trendsetters' inner values are attributes like being bio-decradable, 100% recyclable and not being made out of plastic. They are the standard at our facility and are waiting to be filled with your products. Whether foodstuffs, cosmetics or metalware, we are excited to put you products into a trendy casing

PAUL GAUGUIN

OUR CHOCOLATE FOR SENSUAL MOMENTS OF PLEASURE.

A chocolate gift conveys an immediate positive feelings immediately and activates the reward centre in the brain at full power. The best way to attract and retain customers.

Use our wide variety of products, packaging and promotional items for this. Brand-quality mini chocolate bites, bars and fine pralines from controlled cultivation are guaranteed to suit the taste of your target group.

DOING GOOD TOGETHER

The delicious Swiss chocolate from Share will not only bring a smile to the faces of those with a sweet tooth: The palm oil-free chocolate of the fairtrade praline variety also helps those in need from poorer regions. Because the Share 1+1 principle means that with every chocolate bar sold, a meal is donated to someone in need, making your everyday life twice as sweet.

GIVE PLEASURE, DONATE A FUTURE.

In order for people to be able to utilise all possibilities in their lives, even outside of our Wonderland, there is a need for future perspectives. For many years now, we put in effort to provide these perspectives, by being involved in helping to shape people's social environment. This begins, of course, with the youngest children. That's why we support the Albert Schweitzer Children's Village in Waldenburg with our annual fundraising campaign during the Christmas season and enable help at a place where it's urgently needed. And you contribute to this as well - because every euro donated results from a Classic Wall Advent Calendar purchased from us.

LESS IS MORE.

This is especially true when it comes to the issue of food waste. Because every year in Germany alone, around 12 million tones of food worth 20 billion euros end up being thrown away. In order to counteract this, we donate to the food bank several times a year — to help those who need it most urgently.

SHARED TASTES TWICE AS GOOD.

according to the 1+1 principle.

Because we live in a globalised world and believe that everything tastes even better when shared, our commitment does not end at Europe's borders — but continues here with the support of Share.

Share is a brand that enables you to do good with every purchase of a bar of chocolate and automatically donates a meal to a person in need

Fundraising campaign for Albert Schweitzer Kinderdörfer

For every Classic Wall Advent Calendar sold, we donate a part of the proceeds to the Albert Schweitzer Kinderdorf and Familienwerke.

Working with people with disabilities

For many years, we have provided targeted support for the integration of people with disabilities into day-to-day work through our collaboration with workshops for disabled people.

Donations to food banks

As a result of our regular donations to food banks, we are actively taking action against the ever increasing food and, at the same time, helping people in need.

share chocolate

Shared tastes twice as good. That's why we also support Share chocolate products. Share is a brand that donates a meal to a person in need for every chocolate bar sold.

GENERAL INFORMATION

We have put some basic information together for you. Please note that every inquiry naturally has to be dealt with individually as we could not hope to cover every possible case in writing here. Our customer advisers would be happy to advise you and answer any questions you may have by phone. To make sure the advice you get corresponds to your particular inquiry, we require your desired print subject.

Delivery times

Our delivery dates are valid as stated in the order confirmation, in each case within the delivery week/day of delivery.

Our delivery times depend on the approval of the printing copies and not on when printing copies were received. We cannot confirm a delivery time without an approval of the printing copies.

In the case of high capacity utilisation, delivery times may be extended (e.g. during the Christmas and Easter seasons)

Perishable foodstuffs

Foodstuffs cannot be exchanged. Please check the goods as soon as you receive them and send us any complaints within 24 hours.
We cannot accept any complaints received after this period of time.
Once the goods leave our premises, we no longer have any influence on our foodstuffs and thus cannot accept any responsibility or liability either in terms of quality or in terms of the food law.

In warm weather, it might be necessary to deliver some products by cold-storage lorry to guarantee the goods arrive in perfect condition (note: differnet freights costs).

Corrections

Nothing is printed until you have given us your approval in writing.

Making changes to the proof you receive from us does not constitute an approval. You will receive a corrected proof to be checked and approved. Please make sure you check the proof we send you very carefully. If you are at all unsure, give us a call. We would be happy to help you. Your approval is a mandatory part of the order. It has unlimited validity and cannot be revoked. We cannot assume any responsibility for the prints you approve or for errors of any kind which may have been overseen.

If we are in possession of your data 1:1, the proof is created free of charge. We reserve the right to charge a flat rate for changes made to the proof starting with the third corrected proof.

You will be charged for any work carried out by us in preparation for your approval if you subsequently cancel your order. For extra ordered or seasonal goods, we will also have to charge you for these costs.

Order Changes

After receiving the order confirmation, we can only make system-relevant changes requested by you for a fee of 49,-€

Complaints

If you have any complaints, please get in touch with us immediately. We require at least ten per cent of the total order as proof of the fault. Please send the goods back to us as proof in the original packaging. This also applies to any complaints you have about printing. Complaints about the taste and appearance of foodstuffs can only be accepted if you handled and stored the goods correctly.

Example: Foodstuffs must be stored in a dry place and be protected from changes in temperature (warm/cold).

If you have any questions, please do not hesitate to contact one of our

Damage during transport:

All delivered goods, whether on pallets or in the form of parcels, must be checked immediately for any damage (correct securing, wrapping/boxes undamaged). The driver (freight/logistics company) must be made aware of any visible damage and should confirm this damage in writing on the

delivery papers. Please note down the exact details of the damage, including photos, and inform us immediately. Claims concerning damage reported at a later date and/or damage not recorded on the delivery papers cannot be claimed retroactively!

Order quantities

For technical reasons, divergence of quantities up to \pm 10% is possible. Depending on the category of product, our products are either counted or weighed before they are packed. This can result in different quantities in individual boxes. The final number is checked and logged by us. If there are any irregularities per packing unit, please check the final number.

Notes on packing

When ordering, please take our packing units into consideration. The specified freight costs are approximated, not binding, and cannot be determined precisely until the order has been completed.

Biscuits, cookies, and other baked articles can break during transport.

Colours

Depending on the material and product, colours may deviate.

In the case of multi-coloured printing, a colour-binding proof of the provided data is mandatory

When using a transparent, coloured, or metallic base, colour reproduction can vary if a white background is not used. We would therefore recommend that you use a white background, if technically possible, which is charged as an additional print colour (not in digital printing). To avoid complaints about colour, please make sure you include a colour-binding proof.

Unchanged reprints can also demonstrate colour deviation. This is for technical reasons and cannot be avoided. Nuances of colour deviation will therefore not be recognised as a complaint.

OR CODE and barcode

Please note that we cannot guarantee that QR codes will be legible.

Further processing

Variations can occur during processing for technical reasons.

This applies, for example, to press cuts and blanks of cardboard packaging. In the case of foil products, there can be a slight shift of the motif during packing.

In the case of solid designs, cutting can only be controlled within a certain teleproper.

tolerance. It is therefore possible that colour transitions in the motif are displaced in the cutting area and thus visible as a fine stripe (of the other print colour) at the cutting end of the packing.

In the case of bags, the content text may be concealed in part by the sealed seam.

<u>Tetrahedron packaging:</u>
Due to the packaging, it could happen that the position of the printed image varies on the triangular advertising space.

Sticky wrappers:

Slight blistering may occur and it could happen that the ends of the wrapper may not meet exactly.

Shelf life

The best before date printed on the promotion packaging (1 week tolerance) ist based on the delivery date at the time the print is approved. If there are postponements on your part, we will only adjust the best before date at your request and will charge 49,- € for the change. No more changes are possible if the print has already been made.

The best before date can only be guaranteed if the storage is suitable for use with foods. Taking the product specific properties into account, please ensure you store the product in a dry, cool place protected from sunlight. Temperature fluctiontions should be avoided, especially with products containing chocolate, as otherwise a bloom of fat (white coating) can

Manufacturer's notification on products

In accordance with EU directive 178/2002 for the guarantee of food safety and in compliance with the requirements of the food law, we will be attaching a manufacturer's notification to our products/selling units. For most products, the end customer, dealer, or agency can decide whether he himself as the issuer should be specified on the product packaging or outer packaging or whether the manufacturer should be named. If we are not provided with a manufacturer's notification, we will use our manufacturer. If the end customer explicitly rejects all these specifications, the manufacturer must be released from all claims in

We are obliged to advise you that manufacturer's data must comply with legal specifications. The data are not intended for any promotional purpose.

Due to food law regulations in accordance to VO 1169/2001, the declaration must be in the official language of the country in which the goods are distributed. If declared in another language, we can not guarantee the marketability of the goods. The responsibility of marketability in this case passes to the customer.

Distribution list

If the products are to be sent to different shipping addresses, please send us the address data as an EXCEL file with one address component per column (e.g. company1/company2/street/postal code etc.). Just ask for our template. Bills of delivery must be provided in triplicate. Depending on the work involved, additional costs may be incurred.

IMPORTANT INFORMATION

Information on creating printing copies

If possible, match our provided imposition layout 1:1. Data editing costs will otherwise be incurred

- Line drawings should have an optimum resolution of 1.200 dpi or be vectorised. Continuous-tone illustrations should have a resolution of 300 dpi.
- When sending files by email, please make sure you use the appropriate program extension (e.g. .indd for InDesign, .ai for Adobe Illustrator, .psd for Photoshop).

- Our programs:
 Adobe Illustrator CC
- Photoshop CC
- InDesign CC

If your document includes any imported/embedded files (e.g. tif, eps, bmp, or jpeg files), please make sure you save these separately! Please change the fonts into character paths to avoid the loading of any other fonts. If this is not possible, send us the fonts (only Mac fonts).

Please note the following when supplying data as a PDF:

- Your created data should correspond to our layout template, please do not change it.
- PDF compatible up to PDF/X-4 (Acrobat 1.6)
 No encrypted PDF files (password protection or the like)
 No coloured pattern cells/tile patterns
- No comments, form fields, or the like
- No transfer curves
- Leave layout sketches at "overprint" and you must leave it at our separate special colour with the name "Stand"

Data carriers (if you want to send your data by post):

- Please write your address, file name, logo name, product name, and order number clearly on the data carrier (e.g. CD) and include a printout of the files.
- The printout should include the file name and the name of the printing colour(s) required, e.g. HKS, Pantone.

The fastest way to order:

Just send your data, including the name of the motif, by email to your customer adviser. If the data exceeds 100 MB, we recommend you send us the data via FTP server. If you have any further questions on exchanging data, please do not hesitate to contact your customer adviser.

> Depending on high capacity utilization and material availability, the delivery time is usually 10-20 working days after print approval. Delivery time by individual products, large quantities as well as distribution and individual shipping might be different. We will be happy to provide concrete deadlines as part of the offer or your order.

The delivery dates stated in the order confirmation apply in each case.

Printing information

Fine details, small fonts, and trademarks can smear or disappear In the case of multi-coloured printing, a colour-binding proof of the provided data is mandatory.

Printing methods:

4-c digital printing: Paper/cardboard, boxes, foils, labels

4-c designs are available at attractive prices even with small quantities. Register differences cannot occur. The colours are always compiled from the 4-c process. Special colours in accordance with HKS or Pantone can only be approximated.

Boxes: Applying a white background to the motif, as is usual with silver boxes in pad printing, is not possible. In these cases, transparent inks are not opaque and therefore often do not achieve the desired colour tone (can look dirty). Please also note that negatively recessed elements will appear in box colours in print. On the other hand, this can result in a very elegant effect thanks to the shining through e.g. of a shiny box. Slight streaking may be visible with extensive colour designs.

Due to the bled-off round surface structure of the product, there may be a slight distortion of the printed image.

Foils: Some parts of the sealed seams cannot be printed (see imposition layouts)

1-4-colour flexo: Foils

In full-surface printing, register differences are possible to an extent. A fine unprinted line over the foil is a result of the block ends meeting Colour rubbing on the sealed seam is also possible in full-surface printing. Designs with extensive ink coverage and metallic colours should be varnished to protect them from colour rubbing (counts as an additional print colour).

In printing technology, breaks in the screen cannot be avoided. The tolerances for this are:

- Flexo printing 3%

Sweets: In full-surface printing, a white edge (each of 1 mm) remains on the side at the end of the wrapper ends. Due to the block ends meeting, a fine white stripe runs across the width of the paper.

Note: Halftone motifs only after a printability check. A colour-binding proof of the data provided is required with multi-colour screen motifs.

1-4-colour offset: Paper, cardboard

An attractive price for larger print runs. Printing of special colours in acc. with HKS and Pantone is possible. Fluorescent inks cannot be used.

1-4-colour pad: Boxes, dispensers

Register differences are possible to an extent. The double printing of individual colours may be necessary for full-surface motifs (counts as an additional print colour in each case). Slight scratches and unevenness may appear due to the material.

In printing technology, breaks in the screen cannot be avoided. The tolerances for this are:

Pad printing 15%

Sleeve: A slight distortion is possible on rounded parts.

We alone make the decision on which printing process we use for our products/orders.
